

## **NR 445 TECHNICAL ADVISORY GROUP MEETING 17**

**9:30 a.m. to 3:30 p.m., April 16, 2002**

**First Floor Conference Room, Department of Commerce**

**201 W. Washington Ave., Madison, WI**

### **9:30 Welcome/Introductions/Review of Meeting Notes and Agenda**

- Caroline Garber, DNR Environmental Studies Section Chief

### **9:45 Coal Dust Proposal**

- Jeff Myers, DNR Air Management Toxicologist  
*Purpose: To present and get feedback on a revised proposal for addressing coal dust emissions under NR 445.*

### **10:45 Incidental Emitters Proposal**

- Caroline Garber, DNR Environmental Studies Section Chief
- Jeff Myers, DNR Air Management Toxicologist
- Andy Stewart, DNR Air Management Engineer  
*Purpose: To present and get feedback on a refined proposal for screening out incidental emitters from the NR 445 regulatory system.*

### **11:30 Proposed Particulate Matter Emission Rate for Diesel Generators**

- Andy Stewart, DNR Air Management Engineer  
*Purpose: To present and get feedback on the proposed particulate matter emission rate for diesel generators whose annual fuel usage exceeds 40,000 gallons/year. The proposal was distributed to TAG and Toxic Committee members via e-mail on April 1, 2002.*

### **12:15 Lunch**

### **1:15 Compliance Demonstration Modeling Option**

- Andy Stewart, DNR Air Management Engineer  
*Purpose: To get feedback on the proposal presented at the March 2002 TAG meeting which would allow sources to demonstrate compliance with NR 445 standards by using dispersion modeling to show that individual carcinogenic HAPs do not pose a risk greater than one in a million.*

**1:45 Other Policy Issues**

- Caroline Garber, DNR Environmental Studies Section Chief

*Purpose: To discuss policy issues identified by TAG participants in written comments submitted to the Department as well as issues that TAG participants want to discuss at the meeting.*

**2:30 Next Steps**

- Caroline Garber, DNR Environmental Studies Section Chief

**3:00 Adjourn**
